Showreel

I'm an experienced & versatile Operator - my professionalism & ability to work to tight deadlines makes me a valuable asset to any production.

With a keen attention to detail, I help bring the Director's vision to life through interpretation of scripts, powerful imagery & carefully considered camera movement. Key to my role is building strong relationships with both cast & crew, empowering them to contribute confidently & productively on set.

Based in the UK, my career has enabled me to travel globally & I have greatly enjoyed working alongside local crews.

Hugely experienced using Steadicam, I'm also extremely comfortable working with Cranes, Remote Heads/Wheels, Geared Heads, UCrane, Tracking Vehicles & Handheld. My experience encompasses filming Action, Stunt, VFX, Blue/Green Screen & VP sequences. I consider safety on set to always be of paramount importance.
